CURRICULUM VITAE

Game Programmer

Over the years, I have honed my problem-solving, logical thinking, and time management skills. I firmly believe that my analytical prowess and strong work ethic will make a valuable contribution to your company. I am equally adept at collaborating within a team and taking the initiative to achieve company objectives independently.

Personal Information

Name:	**Doğuş Yiğit Elmalı**
Address:	**Warsaw, Poland**

Experience

March 2024 - August 2024

Yönetilen Bilgi Sistemleri A.Ş. l ISTANBUL

Web Developer

I contributed to web development by working on both frontend and backend coding. I was involved in creating projects from scratch, as well as enhancing and modifying existing ones. This included designing user interfaces and ensuring the seamless integration of various components to deliver high-quality web solutions.

July 2023 - October 2023

Elektromak l IZMIR

Electrical Engineer

During my time in this role, I developed a understanding of the tasks between the Field Coordination team, identified field-related shortcomings, and promptly communicated them to the relevant parties. I was responsible for completing the necessary documentation, including control forms, for project finalization. This direct involvement with both sides of the operation allowed me to gain an insight into the work being conducted.
